## 1Q24 Performance Highlights ${ }^{(4)}$

- Net income available to common shareholders was $\$ 1.1$ billion, or $\$ 0.81$ per diluted share, and includes:
- FDIC special assessment of $\$ 75$ million (\$57 million after-tax), or $\$ 0.04$ per share
- Restructuring charges of $\$ 70$ million ( $\$ 53$ million after-tax), or $\$ 0.04$ per share) for continuing and discontinued operations or $\$ 51$ million ( $\$ 39$ million after-tax), or $\$ 0.03$ per share, from continuing operations primarily due to severance and branch closures
- Accelerated recognition of TIH equity compensation expense for certain event-driven awards (discontinued operations) of $\$ 89$ million ( $\$ 68$ million after tax), or $\$ 0.05$ per share, resulting from the announced sale of the remaining stake in TIH
- Total revenues were down $1.4 \%$
- Net interest income declined 4.2\% due to lower earning assets and higher funding costs; net interest margin was down seven basis points
- Noninterest income was up 6.1\% due to higher investment banking and trading income, partially offset by lower lending related fees
- Noninterest expense was down $\$ 6.6$ billion due primarily to the goodwill impairment and the larger impact of the FDIC special assessment in the fourth quarter of 2024. Adjusted noninterest expense ${ }^{(1)}$ was up $\$ 20$ million, or $0.7 \%$, reflecting higher incentives and seasonally higher payroll taxes, partially offset by lower other expense and lower headcount
- Average loans and leases HFI decreased $1.3 \%$ due to declines in the consumer and commercial and industrial portfolios
- Average deposits decreased $1.6 \%$ due to declines in non-interest bearing and money market and savings deposits
- Asset quality remains solid
- Nonperforming assets and loans 90 days or more past due were stable
- ALLL ratio increased two basis points
- Net charge-off ratio of 64 basis points, up seven basis points
- Capital and liquidity levels remain strong
- CET1 ratio ${ }^{(3)}$ was $10.1 \%$
- Consolidated LCR was $115 \%$
- Announced the sale of the remaining stake in TIH, which is expected to close in the second quarter of 2024

## CEO Commentary

"We are pleased with the progress and momentum of our business in the first quarter. Our expense discipline was evident and reflects important decisions we made last year. Investments we have made in our investment banking business resulted in strong performance in improving markets. Loan demand was muted and deposit costs continue to be under pressure.

Asset quality metrics are normalizing but remain manageable as our nonperforming loans remained relatively stable on a linked-quarter basis and loan losses were within our expectations. The sale of Truist Insurance Holdings (TIH) is on track to close in the second quarter and will strengthen our relative capital position, which will allow Truist to provide even greater support to our core banking clients, assess a potential balance sheet repositioning to replace TIH's earnings, and evaluate a return of capital to shareholders via share buybacks later in 2024 depending upon market conditions.

Our strengthening capital position allows us to better weather any economic environment, and importantly, will enable us to be in a more offensive position with our core banking franchise. I am optimistic about our future as we operate Truist from this increased position of financial strength in some of the best markets in the country."

Taxable-equivalent net interest income for the first quarter of 2024 was down $\$ 152$ million, or $4.2 \%$, compared to the fourth quarter of 2023 primarily due to lower earning assets and higher funding costs. The net interest margin was $2.89 \%$, down seven basis points.

- Average earning assets decreased $\$ 4.7$ billion, or $1.0 \%$, primarily due to declines in average total loans of $\$ 4.4$ billion, or $1.4 \%$, and average securities of $\$ 2.1$ billion, or $1.6 \%$, partially offset by growth in other earning assets of $\$ 1.6$ billion, or $5.6 \%$.
- The yield on the average total loan portfolio was $6.38 \%$, up two basis points and the yield on the average securities portfolio was $2.46 \%$, up five basis points.

Taxable-equivalent net interest income for the first quarter of 2024 was down $\$ 493$ million, or $13 \%$, compared to the first quarter of 2023 primarily due to higher funding costs and lower earning assets. Net interest margin was $2.89 \%$, down 28 basis points.

- Average earning assets decreased $\$ 22.6$ billion, or $4.5 \%$, primarily due to declines in average total loans of $\$ 18.1$ billion, or $5.5 \%$, and a decrease in average securities of $\$ 9.3$ billion, or $6.6 \%$, partially offset by growth in other earning assets of $\$ 5.4$ billion, or $21 \%$, primarily due to an increase in balances held at the Federal Reserve to support liquidity.
- The yield on the average total loan portfolio was $6.38 \%$, up 57 basis points, primarily reflecting higher market interest rates. The yield on the average securities portfolio was $2.46 \%$, up 32 basis points.
- Average deposits decreased $\$ 19.4$ billion, or $4.7 \%$, average short-term borrowings increased $\$ 2.2$ billion, or $9.0 \%$, and average long-term debt decreased $\$ 10.3$ billion, or $20 \%$.

Applicable ratios are annualized.
Nonperforming assets totaled $\$ 1.5$ billion at March 31, 2024, down slightly compared to December 31, 2023, due to declines in LHFS and the CRE and indirect auto portfolios, partially offset by an increase in the commercial and industrial portfolio. Loans 90 days or more past due and still accruing totaled $\$ 538$ million at March 31, 2024, up one basis point as a percentage of loans and leases compared with the prior quarter. Excluding government guaranteed loans, the ratio of loans 90 days or more past due and still accruing as a percentage of loans and leases was $0.04 \%$ at March 31, 2024, unchanged from December 31, 2023.

Loans 30-89 days past due and still accruing of $\$ 1.7$ billion at March 31, 2024 were down $\$ 255$ million, or seven basis points as a percentage of loans and leases, compared to the prior quarter due to decreases in the indirect auto, commercial and industrial, and other consumer portfolios.

- The current quarter provision expense was relatively flat compared to the first quarter of 2023.

## Non-GAAP Financial Information

This news release contains financial information and performance measures determined by methods other than in accordance with GAAP. Truist's management uses these "non-GAAP" measures in their analysis of Truist's performance and the efficiency of its operations. Management believes these non-GAAP measures provide a greater understanding of ongoing operations, enhance comparability of results with prior periods and demonstrate the effects of significant items in the current period. The Corporation believes a meaningful analysis of its financial performance requires an understanding of the factors underlying that performance. These disclosures should not be viewed as a substitute for financial measures determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Below is a listing of the types of non-GAAP measures used in this news release:

- Adjusted net income available to common shareholders and adjusted diluted EPS - Adjusted net income available to common shareholders and diluted earnings per share are non-GAAP in that these measures exclude selected items, net of tax. Truist's management uses these measures in their analysis of the Corporation's performance. - Adjusted efficiency ratio - The adjusted efficiency ratio is non-GAAP in that it excludes securities gains (losses), amortization of intangible assets, restructuring charges, and other selected items. Adjusted revenue and adjusted noninterest expense are related measures used to calculate the adjusted efficiency ratio. Adjusted revenue excludes securities gains (losses), and other selected items. Adjusted noninterest expense excludes amortization of intangible assets, restructuring charges, and other selected items. Truist's management calculated these measures based on the Company's continuing operations. Truist's management uses these measures in their analysis of the Corporation's performance. Truist's management believes these measures provide a greater understanding of ongoing operations and enhance comparability of results with prior periods, as well as demonstrate the effects of significant gains and charges.
- PPNR - Pre-provision net revenue is a non-GAAP measure that adjusts net income determined in accordance with GAAP to exclude the impact of the provision for credit losses and provision for income taxes. Adjusted pre-provision net revenue is a non-GAAP measure that additionally excludes securities gains (losses), restructuring charges, amortization of intangible assets, and other selected items. Truist's management calculated these measures based on the Company's continuing operations. Truist's management believes these measures provide a greater understanding of ongoing operations and enhance comparability of results with prior periods.
- Tangible Common Equity and Related Measures - Tangible common equity and related measures are non-GAAP measures that exclude the impact of intangible assets, net of deferred taxes, and their related amortization and impairment charges. These measures are useful for evaluating the performance of a business consistently, whether acquired or developed internally. Truist's management uses these measures to assess profitability, returns relative to balance sheet risk, and shareholder value.

A reconciliation of each of these non-GAAP measures to the most directly comparable GAAP measure is included in the appendix to Truist's First Quarter 2024 Earnings Presentation, which is available at https://ir.truist.com/earnings.
